On February 27, 2008, the Commission issued a directive instructing certain electric utilities to prepare a brief on their Integrated Resource Plans (“IRP”). This matter comes before the Public Service Commission of South Carolina (“Commission”) on a request of Duke Energy Carolinas, LLC (“Duke Energy”) to hold its IRP briefing, which is yet to be scheduled, in abeyance. Duke states that it will be discussing the IRP in the course of presenting its case in Docket No. 2007-440-E, concerning its Application for Approval of Lee Nuclear Station Pre-Construction Costs. We grant this request. Therefore, the briefing on Duke Energy’s IRP is held in abeyance and will be presented by Duke Energy during the hearing on Docket No. 2007-440-E. However, the Commission reserves the right to require an IRP briefing if it deems necessary after the hearing in this docket.
